Next Generation WILBOR

3/19/2013

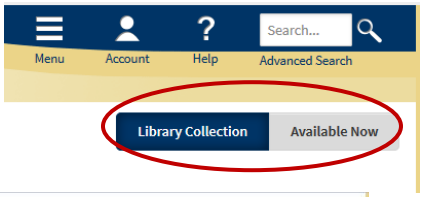
Visit the WILBOR website at http://wilbor.lib.overdrive.com; browse or search for a book.

Browsing

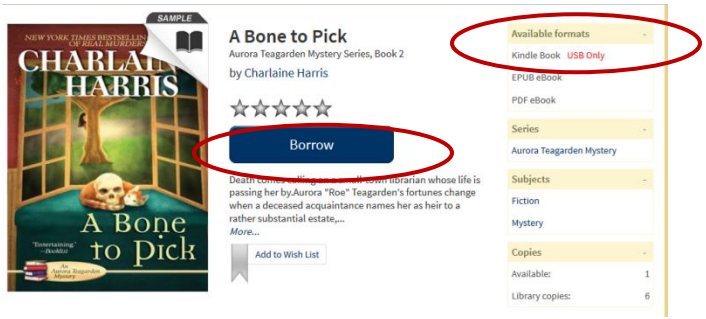
Icons in the corner of a book cover tell you whether the title is audio or eBook. If the icon is black, the title is available. If it is gray, it has a wait list.

Searching and Checking Out

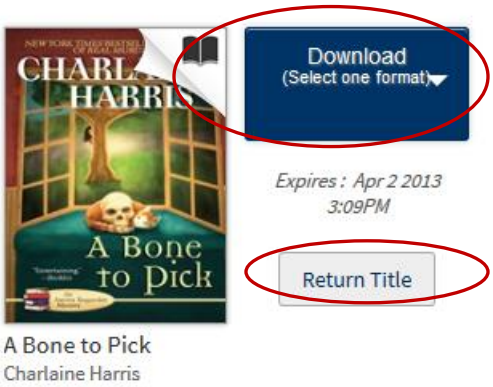
1. **Remember to use "Advanced Search" to immediately limit by format & availability. You can also view only currently available titles by clicking "Available Now" on your search results.**

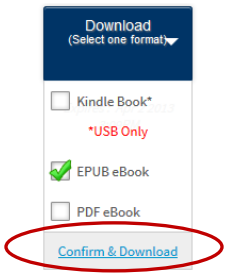


2. **Look for your preferred format as a choice on a title, and click on "Borrow"**



3. **On "Bookshelf," you will be given the option to download your selection or "Return Title" if you've changed your mind. Clicking the Download button will allow you to select your desired format. *Note: Once you select a format, you may only be able to return the title via the software.***

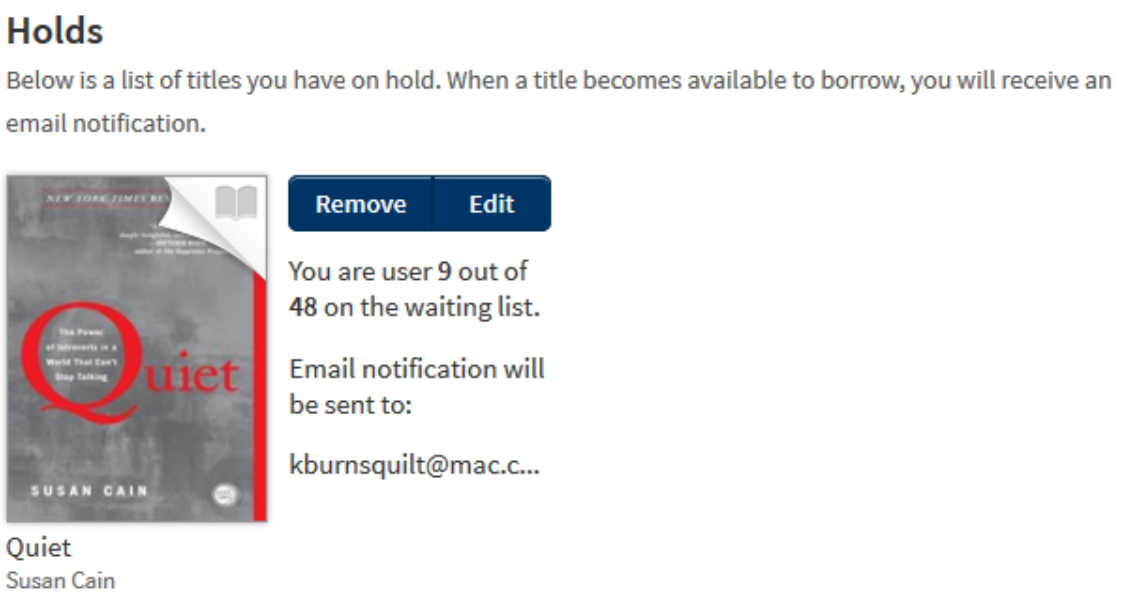




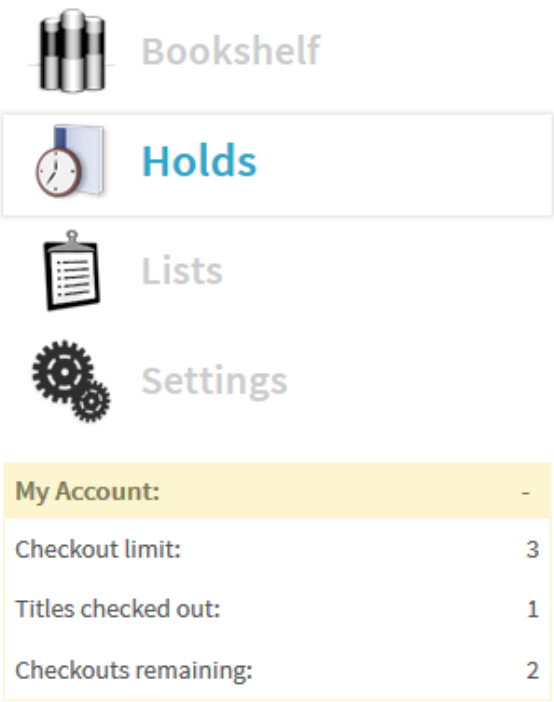
4. **Select your desired format and click "Confirm & Download."**

Holds

The Holds area now looks like this:



Returns will still be done by either Adobe Digital Editions (for eBooks), Overdrive Media Console (for audiobooks downloaded to a PC or Mac) or the Overdrive Media Console app (for eBooks and audiobooks on a mobile device)– wherever the title was downloaded.



Bookshelf takes you to the items you have checked out or are in the process of checking out.

Holds will take you to your items on hold

Lists will take you to your wish lists.

Settings. WILBOR does not offer additional lending period options at this time.

Current checkout status is clearly available.
