Introduction

The State Library of Iowa produces the IOWA LIBRARY DIRECTORY in electronic format only. The electronic (PDF) version is updated frequently. For the most current information on individual libraries, see the SILO Iowa Library Directories, which are updated through the SILO interlibrary loan system, at www.silo.lib.ia.us/for-ia-libraries/directories.

The IOWA LIBRARY DIRECTORY lists 756 libraries, including additions and corrections received on a regular basis. Please notify the State Library of corrections or revisions so the master directory can be maintained.

The directory includes the 7 digit Locator Code for SILO, the State of Iowa Libraries Online network. Populations and size codes are from the 2010 census or the most recent special census. Each directory entry contains a name and address section followed by other information, such as phone number and hours open. Branch libraries are included. There are cross references from the given name to the city served by the library at the end of the Public Library section.

Libraries are listed by type (total number libraries in parenthesis), including Public (544, plus 22 branches), State Agency (14), State Institution (22), Special (64), Academic (77), and Area Education Agencies (13).
